PROGRAMING AND DESIGN SKILLS

Software Diagram:

- Use Case
- Class Diagram
- Context
- Activity
- Object
- sequence
- WBS

Web:

- Html
- Css
- JavaScript
- Bootstrap
- Php
- Laravel
- MySQL
- MVC

Database Design:

- SQL Server
- MySQL

Soft Skills

- Observation
- Decision making
- Communication
- Multi-tasking

About Me

I am Obadah Dadaa, 24 years old from Damascus, Syria. I am working as a back-end web developer since two years appending on my interests in the web field. I like to work with a team and I can learn quickly. I delivered my knowledges after my graduation and improve myself at my own depending on YouTube Courses and some of online education platforms. I have an important mission: "Delivering the customer to his goal, no matter the cost".

Education Background

Certifications:

- *Bachelor of Science : 2017*

- Information Technology Engineering Graduate Speciallization in Software Engineering and Information System,Damascus University: 2022

Professional Experience

- Trainer at Creative Group:2021

- I worked in Nobalaa company for a year as a full stack developer.

- I have developed a custom website managing the relationship of parents(CRM) with an electronic school system affiliated to Dar Al-Hekma school 2022.

- In addition to many projects related to the front-end development, such as an educational website for a university, and a personal website.

🌐 https://github.com/ Obadah-dadaa

- Also I have the ability to work with a team,research and the self-learning.

- **I am able to travel if a suitable job opportunity is available**
