## PROFESSIONAL SUMMARY

Experienced **Web Developer** with expertise in creating **responsive designs**, implementing strong **UI development**, and utilizing **object-oriented programming principles**. Passionate about finding **creative solutions** to **technical challenges** and delivering professional and **clean code**. Seeking opportunities to contribute to **the success** of professional companies as a dedicated **Web Developer**.

Core strengths include:

- **Technical Proficiency.**
- **Problem-Solving & Analytical Skills.**
- **Collaboration & Teamwork.**

## WORK EXPERIENCE

### Software Developer

Aug 2025 – Present

**AI Mutakamela Vehicle Testing (Licensed by Roads and Transport Authority – RTA)**

United Arab Emirates

- Part of the development team working on the company's internal **ERP** system.
- Contributing to backend development and integration between departments (HR, Finance, Operations, etc..).
- Building and maintaining **RESTful APIs** for internal **ERP** modules and the company's mobile application (currently under development).
- Translating UI/UX Figma designs into working frontend components to ensure accurate implementation of designs.
- Collaborating with an offshore technical lead and team members on feature implementation and testing.

### IT Manager

July 2023 - July 2024

**Milia Cosmetics Company**

United Arab Emirates

- Collaborate with the technical support team to troubleshoot and resolve website issues, ensuring a smooth user experience and customer satisfaction.
- Provide technical expertise and support to internal stakeholders, including assisting with website deployment, **database management**, and integration of third-party **APIs**.

### Full-Stack Developer

May 2021 - February 2023

**AI-Nobalaa Company**

Syria

- Designed and implemented custom web solutions using cutting-edge technologies, including JavaScript, PHP, HTML5, CSS3, and jQuery.
- Collaborated with the development team to create and optimize database structures, improving data efficiency and performance.
- Conducted thorough testing and debugging to ensure the functionality and stability of websites, adhering to project timelines and quality standards.

## Back-end Developer

### Creative Group Company

April 2020 - March 2021

Syria

- Developed and maintained back-end systems using PHP, Laravel, and MySQL, ensuring smooth data processing and seamless integration with front-end components.
- Implemented **RESTful APIs** to facilitate communication between different modules and external services, enhancing the overall functionality of web applications.
- Ensure the seamless integration of front-end and back-end components, delivering cohesive and high performing web solutions.

## EDUCATION

**Damascus University, Faculty of Information Technology Engineering**  
**Bachelor's Degree in Software Engineering and Information Systems**

**Damascus, Syria**  
**2022**

## PROJECTS

### ERP System Development – Al Mutakamela

Role: Full Stack Developer | Oct 2025 – Present

- **Technologies Used:** HTML5, CSS3, JavaScript, Bootstrap, JQuery, Ajax, Php, Laravel, Sql Server
- Contributing to a company-wide **ERP system supporting** multiple departments:
  - **HR:** Employee records, attendance tracking, role-based access control.
  - **Finance:** Transaction management, invoicing, reporting, and fee structures.
  - **Operations:** Vehicle inspection records, testing workflows, and service tracking.
  - **IT:** System monitoring, access management, and operational integrations.
- Designing and implementing cross-department data flows to ensure synchronized business logic and reliable reporting.
- **Building and maintaining RESTful APIs powering:**
  - ✓ Internal **ERP modules**.
  - ✓ The company's mobile application (currently under development).
  - ✓ Translating Figma UI/UX designs into **responsive** frontend interfaces, ensuring alignment with backend **logic and API data**.
  - ✓ **Handling database adjustments**, query optimization, and relational data structuring for real-world vehicle inspection and registration workflows.
  - ✓ Participating in **workflow** automation, **role-based** permissions, and inter-department approval **chains**.
  - ✓ Collaborating with a distributed development team to implement, **test, and deploy** features efficiently using **Git-based** version control.

### Car Buying and Selling System

Website: [marota.nobalaa.com](http://marota.nobalaa.com)

- **Technologies Used:** HTML5, CSS3, JavaScript, Bootstrap, Ajax, PHP, Laravel.
- Developed a dynamic web application for buying and selling cars, incorporating features such as **search filters**, user **authentication**, and **real-time** updates using **Ajax**.

### Internal School Management System

- **Technologies Used:** HTML5, CSS3, JavaScript, Bootstrap, PHP, Laravel.
- Designed and developed a **multilingual** and **authenticated** system for managing school operations.

### Games Gallery

- **Technologies Used:** HTML5, CSS3, JavaScript, Bootstrap, React.js, React Routes.
- Developed a **responsive** website showcasing a collection of games, utilizing React.js and React Routes for **smooth navigation** and **interactive user experience**.

## SKILLS & KEY QUALIFICATION

---

- ✓ Experience in developing web applications using Laravel's powerful features, building interactive user interfaces with React.js, and creating responsive designs with Bootstrap Framework.
- ✓ In-depth knowledge of HTML5 and CSS3 for styling and designing web pages.
- ✓ Strong command over JavaScript for creating interactive interfaces and PHP programming language for server-side scripting.
- ✓ Familiarity with jQuery library, Ajax, React Hooks and Model-View-Controller (MVC).
- ✓ Proficiency in working with MySQL, RESTful APIs and cloud-based platform Firebase.
- ✓ Strong understanding and usage of Git and Git repositories hosted on platforms like Github and Gitlab.
- ✓ Proficient in Microsoft Office suite and Zoom, AnyDesk for Version Control and Collaboration.
- ✓ Experience in working with IDEs and Editors like JetBrains IDE, Visual Studio and Text Editors (VS Code, Atom, Sublime, etc.).
- ✓ Proficiency in designing UML (Unified Modeling Language) diagrams to visualize and represent various aspects of software systems.
- ✓ Experience in using diagramming tools like draw.io and Lucidchart.
- ✓ Responsive Design and UI Development.
- ✓ Effective collaboration and communication skills.
- ✓ Analytical thinking and Problem-Solving.
- ✓ Adaptability and Flexibility.
- ✓ Attention to Detail to write clean code.
