- **Technical Proficiency.**
- **Problem-Solving & Analytical Skills.**
- **Collaboration & Teamwork.**

WORK EXPERIENCE

Technical Supporter

July 2023 - Present

Milia Cosmetics Company

United Arab Emirates

- Collaborate with the technical support team to troubleshoot and resolve website issues, ensuring a smooth user experience and customer satisfaction.
- Provide technical expertise and support to internal stakeholders, including assisting with website deployment, database management, and integration of third-party APIs.

Web Developer

May 2021 - February 2023

Al Nobalaa Company

Syria

- Designed and implemented custom web solutions using cutting-edge technologies, including JavaScript, PHP, HTML5, CSS3, and jQuery.
- Collaborated with the development team to create and optimize database structures, improving data efficiency and performance.
- Conducted thorough testing and debugging to ensure the functionality and stability of websites, adhering to project timelines and quality standards.

Back-end Developer

April 2020 - March 2021

Creative Group Company

Syria

- Developed and maintained back-end systems using PHP, Laravel, and MySQL, ensuring smooth data processing and seamless integration with front-end components.
- Implemented RESTful APIs to facilitate communication between different modules and external services, enhancing the overall functionality of web applications.
- Ensure the seamless integration of front-end and back-end components, delivering cohesive and high-performing web solutions.

EDUCATION

Damascus University, Faculty of Information Technology Engineering
Bachelor's Degree in Software Engineering and Information Systems

Damascus, Syria
2022

PROJECTS

Car Buying and Selling System

Website: marota.nobalaa.com / Specific Application: [Google Play Store](#)

- Technologies Used: HTML5, CSS3, JavaScript, Bootstrap, Ajax, PHP, Laravel
- Developed a dynamic web application for buying and selling cars, incorporating features such as search filters, user authentication, and real-time updates using Ajax.

Internal School Management System

- Technologies Used: HTML5, CSS3, JavaScript, Bootstrap, PHP, Laravel
- Designed and developed a multilingual and authenticated system for managing school operations

Quiz Project for Testing Model

- Technologies Used: HTML5, CSS3, JavaScript, Bootstrap
- Created an interactive quiz application to test user knowledge, featuring multiple-choice questions, score tracking, and responsive design.

Games Gallery

- Technologies Used: HTML5, CSS3, JavaScript, Bootstrap, React.js, React Routes
- Developed a responsive website showcasing a collection of games, utilizing React.js and React Routes for smooth navigation and interactive user experience.

SKILLS & KEY QUALIFICATION

- ✓ Experience in developing web applications using **Laravel's** powerful features, building interactive user interfaces with **React.js**, and creating responsive designs with **Bootstrap** Framework.
- ✓ In-depth knowledge of **HTML5 and CSS3** for styling and designing web pages.
- ✓ Strong command over **JavaScript for creating interactive interfaces** and **PHP programming language for server-side scripting**.
- ✓ Familiarity with **jQuery library, Ajax, React Hooks and Model-View-Controller (MVC)**.
- ✓ Proficiency in working with **MySQL, RESTful APIs and cloud-based platform Firebase**.
- ✓ Strong understanding and usage of **Git and Git repositories hosted on platforms like Github and Gitlab**.
- ✓ Proficient in **Microsoft Office suite and Zoom, AnyDesk** for Version Control and Collaboration.
- ✓ Experience in working with **IDEs and Editors** like JetBrains IDE, Visual Studio and Text Editors (VS Code, Atom, Sublime, etc.).
